

New GE F1 class!

CS 3500: *Human Centered Design*

Where
Computer Science,
Psychology,
Sociology,
and
Biology
meet!

How do humans think when we work?

How do we use tools?

How do tools change us?

Can we make *tools better* to make our work *easier*?

How?

Psychology/Sociology: how humans work and play

Biology: what humans can remember, what we can see, how we react

Computer Science: building tools to make human lives easier and work more effective

Mon-Wed-Fri 12:20-1:18pm. CRN 43602

Contact Dr Megan Thomas, mthomas@cs.csustan.edu, if you have questions

Satisfies CS breadth requirement.
